Allowable Subject Matter

Claims 1-15 are allowed.

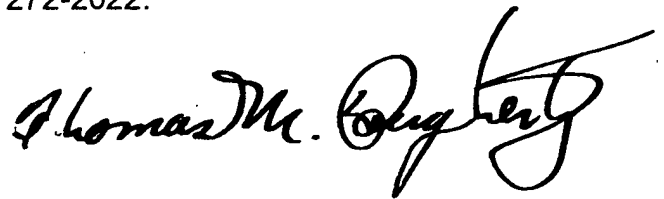

The following is an examiner's statement of reasons for allowance: the prior art (Tatsuharu et al. JP 5121790) shows features of the claimed invention including a stator with a driving element and a rigid portion which is employed to drive a body including two electromechanical sections, linked and used for the driving and which extend in a parallel in a direction to the direction of displacement, however the prior art does not show electromechanical elements which accomplish this by being driven in a direction perpendicular to the direction of displacement, nor would it be obvious to so alter the Tatsuharu et al. reference in order to account for such a perpendicular displacement.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
